

Unibán Fundación and Fundeban delivered a playground and a multi-purpose court to the community of La Gran Vía in the Banana-growing area

- *The construction of this infrastructure will benefit about 2900 residents around the region.*

Santa Marta, Magdalena. May 25, 2023. With an investment of over \$170 million, and after 85 of construction, Unibán Fundación and Fundeban delivered a new bio-healthy playground, and the upgrade to the multi-purpose court in the locality of La Gran Vía, in the municipality of the Banana-growing area of Magdalena. These new locations will enable the children, youths, and the community at large, to promote sports and recreation, as well as a sense of belonging.

“It is extremely important for Unibán Fundación to be party of these kinds of initiatives with which we help fulfill the dreams of the people in the region by promoting collective recreation and encouraging sports activities”, said Carolina Jaramillo Ferrer, executive director of Unibán Fundación.

In turn, Fundeban’s executive director, Iris Yancy Orozco, said: *“We built these venues to contribute to the families’ entertainment and healthy recreation. We kept or promise to the community of La Gran Vía, a place designed and built for the, a place of peace and tranquility”.*

The upgrade to the court included fencing it in to ensure the security of the neighboring houses. The vertical parts of the goals were made higher and reinforced with trusses, to make the structure more stable. The entire surface of the court was rehabilitated. Finally, solar lamps, healthy equipment, and metal benches were installed, paint was applied, and stainless-steel trash bins were set up.
